

**A DOOR IS VERY RESISTANT**

ITS RESISTANCE CAN BE INCREASED WITH SOME SIMPLE STEPS...

A SOLID WOOD DOOR OF 30mm WILL RESIST FOR ABOUT HALF AN HOUR. THE FIREFIGHTERS WILL BE THERE IN TEN MINUTES...

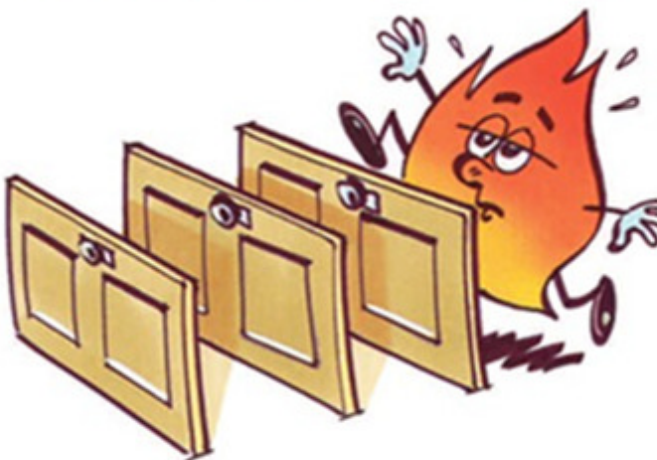

A CLOSED DOOR WILL KEEP YOU SAFE.

YOU CAN HELP PROTECT YOURSELF:

KEEP SMOKE FROM ENTERING YOUR APARTMENT BY SEALING THE DOOR WITH WET SHEETS OR TOWELS

BRIGADE DE SAPEURS-POMPIERS DE PARIS

IN CASE OF FIRE...  
**CLOSE THE DOOR!**  
AND CALL THE FIRE DEPARTMENT

When there is a fire in the apartment, many people die due to a lack of knowledge about basic safety rules.

CALL THE FIRE DEPARTMENT (18 or 112)

MOST VICTIMS ARE THOSE WHO WANT TO LEAVE THEIR APARTMENT...

FIRE AND SMOKE RISE. DO NOT USE THE STAIRS!

ONLY A CLOSED DOOR CAN PROTECT YOU!

IF THE FIRE IS INSIDE YOUR APARTMENT, LEAVE AND DON'T FORGET TO CLOSE THE DOOR!

DON'T JUMP OUT THE WINDOW!  
DON'T RUN TOWARDS THE SMOKE!

IF THE FIRE IS OUTSIDE YOUR APARTMENT, STAY INSIDE!

INDICATE YOUR PRESENCE AT THE WINDOW AND USE YOUR CELL PHONE TO CALL THE FIRE DEPARTMENT.

THE FIREFIGHTERS WILL COME AND SAVE YOU.
